

Speakers Bureau Trainings!

Passion and enthusiasm are contagious — share yours with your community as a member of Men’s Anti-violence Partnership Speakers Bureau!

Men’s Anti-violence Partnership speakers give presentations that raise awareness about the causes and consequences of sexual violence and inspire people to take action.

We speak to a variety of audiences, including schools, businesses and community groups, educating hundreds of people each year. No prior experience is necessary, but an aptitude for public speaking is helpful and a passion for ending sexual violence is a must.

The Southern Arizona Center Against Sexual Assault’s Men’s Anti-violence Partnership is pleased to announce training dates for our Speakers Bureau.

Please choose one of the following options:
